

Slindon Church of England Primary School  
Testimonials for the Website

**I like Slindon school because...**

you can go swimming every week if it is winter or not. And the clubs after school are great! The teachers are very nice and when you are hurt they help you a lot. They are nice people here. One of the best things about Slindon school is it is very small. I know everybody's name. The school trips are the best because you can play fun games and bring money so you can spend it.

**I like Slindon school because...**

you can talk to the teachers. It's a small social school and you can go to a club. The trips are fun. The adventure playground is excellent. The best thing here is how the school makes learning fun. It is good fun when we get to have 'Fun Swimming'. If you are not so good at spelling you get to do fun games to help you with your spelling. Every day is full of fun and helpful learning. The best bit is it is a bully free zone and we all get along very well. The school plays are fun and funny! My class teacher is very funny and will give you good, helpful tips with work.

**I like Slindon school because...**

teachers treat us fairly, support our weaknesses and develop our strengths. The teachers are also helpful and kind. I really enjoy the myriad of clubs that are available, like Computer Club, Gymnastics Club and Nature Club. One of the advantages of Slindon is being able to start swimming from Reception, that really helps our swimming skills.

**I like Slindon school because...**

I have lots of great friends. Everybody is so friendly. We have a very good learning environment because we have 60 children in the school. We have great opportunities in sport as the school arranges lots of sports activities.

By Matthew Year 5

**I like Slindon school because...**

the classes are small and you get more one to one with the teacher running the lesson. Slindon Primary is a school set in the beautiful countryside. I especially like the field with the new goal posts and our new adventure playground. In our school the teachers are fun and help all the pupils.

**I like Slindon school because...**

the other children are helpful and kind. I also like our school because it is very small and we know each others names and we all have our own personalities. Our school field is great because it is huge and we have good football nets. We also have a range of clubs, from Nature Club to Gym Club.

By William Year 5

**I like Slindon school because...**

we are a small school; we know everyone's name and personalities. There is a range of sports competitions that usually the whole class can compete in, because there isn't enough of us, which is great!

The teachers are very good because they will always explain to you if you don't understand. The work is always at our independent level.

The lessons are fun, like Maths, English, Art, Music and P.E.. We also go swimming on Fridays.

We have two residential trips to Hayling Island and Dorset. They were both very good. Hayling Island was about improving our sports skills, Hooke Court (Dorset) was about World War 2, as we were learning about it.

I also like the Leaver's Service. That sounds quite harsh, but the way we send people off is great. Through the years I have watched people cry in a happy way and now it is my turn. I have enjoyed my years here and will take all my developed skills to my new school and use them well.
